

Chewing Gum

This activity combines everything we have worked on for the Process Coursework:

- Cause & Effect
- Sequence
- Passive grammar (be + past participle)

Discuss

Do you like chewing gum? Why/why not?

How do you think chewing gum is made (steps and stages etc.)?

Lesson plan:

1. Listen to the video and make notes (on the other side of this sheet)
2. Discuss with your partner what you heard and finalise your notes
3. Write a summary description of how chewing gum is made.

Vocabulary Check: Listen to the first section of the video and make notes on the list of ingredients.

Initial ingredients

Gum base:

Ingredients not on label, trade secret

Polyisobutylene:

Polyvinyl acetate:

Wax

Rosin

Talculm powder

Method

1 Make your gum base
