ATTILA
BRIGITON
Saturday 5 June 71
Number 5.
```

Another paper in Brighton. Black Flame from the Brighton Anarchists. Bi-weekly. And it all goes to prove what ATTILA \& the predecessor of BLACK FLAME (UOULD YOU REMEMBER FLEABITE?) show pretty clearly. Doing a newspaper is nothing to do with Booverbreek or any other press lord......all you need is a typewriter, some ink, \& access to somebody's duplicator. Easy.

Why not get one together yourself? Be the first on your block. There are a lot of machines around...at the $U$. for example, which could be used....call iv a project in social relations. Whatever that is. But as a label it will satisfy anybody at the $U$. (or the tech. or wherever) who's into asking what equipment is being used for.

BLACK FLAME sells for lp, so does NTIILA when I don't get fantastic ideas like lithographed covers done at equal expense. It should be possible to do your own for an expenditure of about 2 pounds for two sheets, 250 copies...if you can get at a cheap duplicator.

UFO CLUBS....if there are any in the Brighton area, or people into forming one, would they contact $A=S=G O N C Z A R: 100$ BONCHURCH ROND: Brighton. BN2 3PH. Tel. 682252.

FREER STREETS.....Have you noticed how car drivers hassle cyclists? A bike can be used to sabotage traffic \& give car drirers some of their karma back,

Get half a dozen friends with bikes \& stage slow bicycle races along traffic clogged streets. Practice your weaving with the cars as part of the warp (or is it weft). Bikes are a lot more mobile than cars, and a lot more fun, Show drivers it can happen.

Also, help is needed if Brighton is ever going to have clean streets.....that ls, if anybody down here really gives a shit about clean, quiet streets. People needed to distribute leaflets, to flypost \& to plan a street carnival, possibly for the weekend of the Revolutionary Festival at the $U$. DIS-rupt a little traffic.

IF any of the above sounds good fall along to 81; HANNOVER TERRACE or telephone 6?1133.

A LIKELY TAIL.....
According to the 1956 U.S. Medical Survey the birth-rate of babies born with tails (a caudal appendage) has for the first time in ten years surpassed $50 \%$. Average tail-length was about 7.6 centimeters (not very long) but several kids were born with tails of over 7 feet. (longer) Our correspondent states "It is the official opinion of this publication that until it is conclusively proved that there is an evolutionary trend involved that all tails should continue to be amputated." (Opinion of which puilication? ATTYLA? Taking a poil of . those present one wanted trem cut off; one didn't know \& one was in favor of their retention until the baby was old enough to decide. On the grounds that what was cut off couldn't very well be put back.) If, however, that was the opinion of the $U=S=M E D I C A L S U R V E Y$, then it's no wonder that U.S. medince is fucked up. Evolution had nothing to do with ic.

LITTLE PEOPLE.....Anybody into dwarves, kabouters, pixies \& that might call 681133. In case none of you've noticed the (Underground) (Alternative) in Brighton has a long way to go before it comes together. If the Gnomes could get it on in Amsterdam (not the most turned--on of cities) there's no reason why we couldn't here.

LITTLE KNOWN FACTS ABOUT VOMEN.....According to Maslov the reason that women wear skirts is that they can't pee standing up. (Oh, yeah? Havelock Ellis had it all figured that women \& wueers couldn't whistle. \& what about Scotsmen?)

TO EACH HIS OWN.....
If you get an allotment you can grow most of your own food \& give/exchange with friends. You liberate yourself from profitgeared, DDT-sprayed, devitalizeł food industries \& at the same time enjoy the simple but wondersome pleasure of organic gardening.

UHAT TO DO. See the Allotments Officer at Moulescoomb Place on the Leves Road (Near College of Tech.) Hove address is Parks Department, 7 Norton Road, Hove
\& if you start it now's a good time to begin your compost heap for this autumn...tea leaves, peelings, any organic matter. \& Good Gardening.

Invocations to Pan, Silvanus, Ceres, The White Goddess should not be neglected. \& for other help (books etc.) there's INFINITY FOODS which will stock books about organic gardening.

RADIO FREAK．．．．
Last summer some guys at the $U$ ．got together a radio station called Radio Albatross．Broadcasting the other music for a few hours on Sunday afternoons．Highly illegal，but a gas．Brighton could still use this sort of thing．＇What＇s the last time you listened to Radic Brighton，seriousiy？Unless yod＇re the same sort of pervert，as those who thought Beyond the Valley of the Dolls was comedy．In that case you＇ll really piss yourself at Radic Erightor a sort of local versior of Sarry On Kafka or Town v．s．Goun．．．．．Susscx version of Wa．cf the Horlds．）

The government have the monopoly on the mecia，But why？tho gave it to them？Did Brittania really spaing into being complete with an aliocation of three televiviscction channels \＆four radiawful programmes？Somebody who has the equipment is the enthusiasm might do it．

MOLE EXPRESS this issue has a nice 2 page spread on a free bus campaign in Manchester. Sounds like a protty good idea. \& maybe a free bicycle campaign to go with it?

The IT comic book...NASTY TALES...has happened. 20p.

TTHHEE HHEEIIGGHHTT OOFF CCHHIIVVAMLLRRYY.....
Also, he hed what you might call a rather unique method of tipping his hat: meeting a lady he would bend forvard from his anklos, leaning out at an angle, tilting over further and further, until finally he would collapse in a heap on the floor in front of her.

HO!! TO MAKE LOVE TO AN OLDER MOMAN.....Older woren are supposed to be more experienced than evcrybody else in matters of passion; but I really didn't expect what just happened to me to happen. Here is exactly what I found out about making love to an older woman. First she takes you to the foot of a big elm trec. She reaches into the lower branches and disentangles a long silk rope ladder. Then she tells you to climb into her treehouse, and to "take core". Then, pulling out a tiny lace handkerchief to signal with, a handkerchief embroidered with a needlepoint picture of "Sally", the chief performing electric eel at the Barnum \& Bailey Circus, she begins to signal to a passing dirigible. Then, while it hovers overhead, you \& this experienced ledy climb in. Then she gives you the best private oral instructions on how to drive a dirigibla you have ever had, while exciting herself surreptitiously by shuffling through a private collection of Irrestible French postcerds picturing Japanese-manufactured steam-shovels painted all colors of the rainbow. The crew, of course, keeps discreetly out of sight. Fortunately, too; because the next thing you know she is standing in the captain's chair nude fron the waist up, and also fron the waist down. And then...and then... (I can hardly bring myself to say it, it's so exciting) she puts on a transparent lace hoopskirt over a suit of rusty cirmor! To you, she offers a sort of duncecap with a halfmoon on it, and a magic wand. And then, while tho dirigible goes careening crazily through the stratosphore, with her pet monkey at the controls, she increases the level of excitement by showing you several of the original Mickey Mouse cartoons dating from around 1939. To add even a little more "atmosphere", as she calls it, she shows them using a child's toy projector with a battery-powered bulb but worked by a crank. What happens next, when the movies are over, shows the most ex perience of all! (Concluded on top of page 7!)
