

LATE NITE ATTILA.....after too many late nites, too many early mornings, too much paranoia from too many blown minds...

Faces from the past (long past, forgotten past, a year ago) G. worked for an underground paper up in London. "as i.t before the worker's' takeover? 'as it after? Saw him every week then, now haven't seen him for a long time. How was he? Noticing 'is teeth...like a bull's skull left out in the sun, emerging like seeds sprout, going to be some kind of iron trees. Just what London needs, more iron trees. A real London kid.

Whatever happened to, rattled off names. Y'ere righ't there next to 'im, a couple doors away. Didn't see, couldn't look, hanging curtains in a room in one of those buildings that's coming down, time coming down heavy all around it's shoulders. Rags of curtains lasting longer than $G$. will at this rate. Nothing special, nobody miss him, turned into cinders \& polluted London.

RED SCHOOL BOOK...
It appears that the Red Schoolbook raid on Unicorn was not after all a local police plot. It was part of a national police plot. Which reassures, yassuh, boss.

The little Red Skoolbook has been busted so far in Glasgow, Birminghan, London, \& Brighton, not counting the raid on the publishers themselves. In addition a number of porn shops in Brighton and London have been raided ever so quietly.

Ever so quietly since nobody wants to stir things up. You go into court after having made a deal with the prosecutor...you plead guilty to these books and we'll let you have these others. Which is the way it's done in the real worid.

YES, VIRGINIA, THERE IS A SANTA CLAUS?
At the same time that all this heavy police activity has been going on that "champion of literacy", Private Eye, has had a quiet little cleanup of its sexverts. as has Exchange \& Mart. As of now, all you secret wankers (hell, all us secret wankers) will have to content ourselves with News of the World and just as much Tits and Ass as Heath \& his merry men decide that it's safe for us to see. (Not that Heath is known for being a tits and ass man. I guess he just doesn't understand our problems.)

A cross-eyed treetoad could make a pattern out of all this raiding \& polishing whiter than whitehouse. It's called "Singing the Long-gone, Righton, Longford Blues" \& its initials are Cliff Richard. And at the end of the day Edward Heath will get a gold star from the Longfords of this world to put on his yacht.

Maybe it's too late. Maybe the time has passed for people to read, or say, or think what they want to. Maybe Longford is right...the people of Britain want a cleanup and they're going to have it. First we'll burn the pornographic books, then the pornographic objects, and last of all the pornographic people. Back where we started from, Adam \& Eve.

A lot like a guy I know here in Brighton. Middle-aged, scared shitless from remembering what it was like to STARVE, buddy. Now he counts pennies. Hell, he doesn't count them, he crucifies them. In his calmer moments he's a pretty nice guy...believes in God, Mother, the Dignity of Man, the Good Things of Life etc. He also believes, with Lord Longford, that "some things should not be said". And (Again with Lord Longford?) that the "experiment has failed, human life was a mistake. He claims, this
friend of mine, that if it were his option, he would press the button $\%$ end it all. For all of us.

The question about Longford's mind implied in the last paragraph is a serious one. It would be facile to call him Fascist. (no pun intended.) But the kind of totalitarian thinking which can seriously contemplate investigating other people's choice of reading material is itself in drastic need of investigation.

This article is, therefore, an open invitation to all interested parties to participate in an investigation of Lord Longford. It is hoped that prominent members of the medical profession as well as those politioians who are old enough to remember the thirties will wish to participate. Together with those members of the Church \& the Entertainment Industry who find themselves impelled to speak for the opposition.

That is, if there is any Opposition. It is likely that the entire case will be decided by default. Christian Hypocrisy will claim yet another victory. The Crown, the City of Westminister, and the Church of England will continue (as they have for years done) to collect rents, tithes, taxes, payoffs, \& percentages from Prostitution, from Pornography, from the very Hell they profess to decry.

Give Longford his lead. Get the prostitutes off the streets \& onto the notice boards. Like it says, in LARGE print......it,s not what you does, it's what they see's you does that counts.

The Little Red Schoolbook was originally designed to sell at 30 New Pence ( 6 Shiliings). As a result of the raids it is now selling on the Blackmarket in London at 1.50. In the best British tradition. And to the VERY BEST British dirty old men.

## HOME COOKING DEPARTMENT

This week's recipe for a do-it-yourself flicker show: firstly find yourself walking beside Saint Peter's Church (Lewes Road Side, trixt bus-queues and church, either direction, to and fro, up and dow) and look up at the stained-glass slides set into the side of the life-size replica of the Apollo $X$. (Notice that you see the slides only by way of the row of glass shop-window transparency peepholes on this nearside.)

Now, whilst you walk along, both sets of panes move, but the parallax differential allows you to see a continual succession of slides in each discrete pane, one on top, one after the other, in a religious procession. If your tracking speed is even \& correct, and if the sun is shining on the other side low \& in the west (for example, early evening in the late spring) \& if you don't bump into any old ladies, then the effect is guaranteed to please.

## \& FOR AFTERS

A commonly unobserved natural event is the "echelon echo" (so called). If you walk beside a corrugated iron fence or a slatted wooden fence, the sharp KLIK of your heels is reflected back in a regular series of quick licks from which emerges a high-pitched ppiiiinnnngggg. To be noticed faintly at night, when no one else's around, save the hearer \& the heard,
walking hand in hand, quickly,
thru the icy streets of Hove.
p.s. don't listen too hard.

ATTILA would like to hear from readers with individual experiences similar to the above. Hopefully a day \& nite trippers

MORE CENSORSHIT...
A letter in the current issue of Forum illustrates pretty vell
a kind of thinking. Depressing:
"I was recently given a copy of your magazine Forum, and the contents prompted me for the first time in my life to voice my opinion in writing.
I am a happily married man of 45 , and $I$ have two children. My wife and I enjoy an active and satisfying sex life. I am quite in favour of journals of sex advice if they are worded in a decent manner by qualified people with a sense of responsibility; but your magazine falls far short of this, and can only be described as being written by perverts for perverts.
It is obvious that by publishing the letters of perverts you are trying to persuade them that they arg not perverted in order to sell your sick magazine. Although from reading some of the articles written by your staff with the use of so much foul language, it is clear that some, if not all of you have unbalanced minds. It is a pity that people such as you (who are a minority who try to degrade the human race) cannot be put out of their miserable existence, because you do not know the meaning of the words love and happiness.
I am no prude in sexual matters and I am not out of touch with modern life, being a coal miner I hear and use foul language in the company of my workmates, but I can honestly say that your magazine sickens me. I am sure that you must have had many letters such as this which you do not publish because it will not sell magazines to your kinked readers. I honestly pity you, poor perverted parasites. F.S. (Staffs.)

## DOPE NOTES...

Attempts to cut down the amount of heroin reaching U.S. troops in Vietnem will inevitably raise prices \& make the problem worse.... Rumour has it that pilots in the U.S. bomber planes are fixing. Now you know what $H$-Bombs are...
And, of course, the knowledge that the Vietnam traffic in Heroin is being carried out by, among others, highly placed officers in the South Vietnamese Army must give at least some people the willies..... Doctors \& Policemen (those who don't turn on themselves) obviously see only the bad side of turning-on. If you have a good trip or smoke, you're not likely to tell anyone in authority. And activities which you don't share are not likely to have much usefulness to your way of thinking...Hash is said to be gradually becoming available again, but beware of a grey Ford Escort....In 1951 the U.N. estimated that 200 million people smoked hash, a habit going back generations. Any evidence of long term harm?....Most acid tabs available in the U.K. are l00200 micrograms. Purple Owsley, Blue Cheer, \& other such great names are long departed...In view of the credibility gap, no report on the last Magical Mystery Tour. As one of the participants said, "I was there, and I don't believe it. Why would anyone else?.....Heroin addiction in Japan has been cut by strict controls \& the concurrent availability of soft drugs. ....Similarly, Nixon's Cperation Inept proved that stopping soft drugs leads to their replacement with harder ones..... Rumour has it that Israel won the 6 Day war because all the Arabs were smashed out of their heads. Israel is the most anti-dope place in the Middle East, anyway....

Julian AMERY STRIKES AGAIN...
Did anyone see the very lovely Julian Amery---Tory M.P. for Brighton Pavilion \& Minister of Housing---on Panorama last Monday? For those who missed the treat, he was supposed to be taking part in a Public Meeting on housing conditions in Islington (London) which are pretty bad. Appearing to be inebriated or half asleep throughout, he buried his head in his hands when asked difficult questions and thanked everyone present for "a most
enjoyable evening" at the end. Apart from this, his major contribution to the festivities was the quaint observation that we shouldn't worry too much about homelessness and abysmal housing conditions as "things were worse in 1945." Hands up all those who didn't vote against him at the last election.... Sec it doesn't happen again.

STRANGE BUT FALSE DEPT.
Atomic clocks have proved that the Earth gains or loses up to a second every year. Scientists are now using two kinds of time---earth's rotation and Atomic Clock. But what is it that the Atomic Clocks are measuring?.....The offices of the inevitable Brighton Marina have tapes of Seagulls \& jolloy ocean noises playing about in Dyke Road where it collides with Hestern Road. (Already a noisy enough place what with traffic). If this idea spreads we could have an even noisier society than the one we have now: Uolf Whistles at Miss Selfridge Wailing Babies at Mothercare Flushing Toilets at the Clock Tower Cattle Yowls at the Butchers Cars Crashing at Insurance Offices Groans \& Screams, at Hospitals Sighs and Gasps oit the Vogue Cultured Smalltalk at Antique Shops.....etc.
You could, of course, get your own tape recorder and (as a public service) provide free sound effects. For example, Vailing Babies at Miss Selfridges, Cattle Yowls at Polling Stations, Cultured Smalltalk at the Vogue. Endless possibilities.

OUR FLEET STREET CORRESPONDENT URITES...
When Biba's was bombed, it was discovered that many of the assisstants were aged less than 18 \& received very low wages. Since then the Observer \& the Evening Standard fashion pages have featured Biba assistants modelling Biba clothes. Strangely enough in both cases the model's age was given as 22 . How nice. to have friends in Fleet Street. For P.R.

WHAT GOES IN IS YOU ARE WHAT COMES OUT IS YOU ARE WHAT GOES IN Wasn't it Michio Kushi who once said, "This is a changing world. You will disappear some day, this earth will disappear, this galaxy will disappear, this visible universe will change. But movement itself, change, is endless \& constant \& immortal. The law of change is justice. Everything in this grand universe is changing and you are the king of this universe. You changed yourself, within infinitys into man. You are a manifestation of infinity. By your daily eating and activity you are changing yourself. Infinity is a wonderful thing. By eating we are changing, for example, the seeds of the vegetable kingdom into man, after only 48 hours---they become a part of us. Enting is a wonderful function of changing life. Eating is the transmutation of life from nature, from infinity. If you have a nig appetite for food, thet is very good. You are transmuting cyerythine into vour
vitality, your energy. You can change everything into man, into your thinking and activity."

SON OF STRANGE BUT FALSE.....
The Grass between the King \& Queen and the Art College is closed to the public, yet it was given to the town by Queen Victoria. But she boobed. It was given to us as "A Public Walk or Pleasure Ground". So the council decided (for our ovn good) that it wasn't a public walk but a. pleasure ground. Later, the council separated pleasure grounds into "Open" and "Closed" categories and made it an offense to walk on "Enclosed" pleasure grounds. Recently a plaque mentioning the gift has been taken down from the south end of the grass.
But you lot know it's all for the best. You might damage the grass as you walk over it. If you have to walk over it, please follow the woll-defined tyre tracks left by the Parks and Gardens Department. Every time they change the flowers they use a 3-ton lorry to move everything. Somebody up in Norfolk Terrace was playing football in the street with the kids who live there. Up came a Panda Car \& he was told to stop playing football or he would be arrested. He picked up the ball and bounced it around the police car. Then he was persuaded to enter the car, but re-appeared out the other door, \& bounced the ball into a house. He was chased into the house, but escaped out the back. A short time afterwards, with the aid of the occupants of 5 (count them, five) police cars the man was recaptured. Since then, this dangerous criminal has been fined 35 pounds and given a 3 month suspended sentence. And an onlooker was told that he would be arrested for not assisting the police when shouted to for aid. No action has yet been taken.

(In honour of Prince Philip's 50th Pirthday?) So a Teddybear Liberation Front member, Chris Neath, climbed the flagpole \& liberated it. He was observed, tracked down, arrested \& required to give fingerprints. Bail was, as usual, refused. SOLIDARITY WITH OUR TEDDYBEAR LIBERATION FRONT BROTHER \& ALL POLITICAL PRISONERS!!!
